

SPOT AWARD

Rohan Shahane

We would like to appreciate Rohan for all his efforts & dedication on Alexa integration.

Eric McDonald from the Aptify Sales team reached out with an urgent request to demo an Aptify and Amazon Alexa integration. Since, we did not have this feature in our stock product, it needed to be built from scratch. Shreyam and Rohan were assigned to work on this along with Vishnu from the sales engineering team. Within less than 48 hours, the team had the Aptify Alexa integration demo ready. This quick turnaround achieved by focused time and dedication to complete the task at hand is appreciated.

We sincerely appreciate Rohan for his #ownership, #flexibility and #Accountability ... Keep up the good work.
